COLLECTIT
your debt collection system

✓ Main Construction NZ Ltd

"The collectIT system is brilliant!! It has saved us enormous amounts of time and money. Being in the building industry we have been searching for a low cost way to recover bad debts and slow payers. Debt collectors have cost us the earth, but with collectIT we are able to use their easy, no fuss, online system to recover our own debts following the simple step by step system. CollectIT also has brilliant customer service and phone numbers you can ring at any time you may get stuck, or just need to ask a question. We have recently just served our first court order using the construction contracts part of the website - it was easy and with the back up of calling the collectIT team, we couldn't go wrong. Thanks collectIT for making debt collection easy!"

✓ Eric Moess Fencing Ltd

"I was doubtful that I needed collectIT because I kept thinking I could do this myself, and we did not go to a debt collector as we were not happy with the fees they charge.

Using collectIT has been very successful for us because it has systemised our debtor management. I am now sending out the 1st letter in the process much earlier than I used to and we are getting money in the bank much earlier than we used to!

I am still chasing 2 very overdue and very large debts and the collectIT office has been extremely approachable and helpful going through the court process."

✓ Battenman Hamilton Ltd

"When we joined collectIT we had a very overdue account that we had been chasing for almost a year. After handing that one over to the collectIT team to take care of, we were paid within 1 week!! This was after our lawyer had already sent a letter 6 months earlier, to no avail. We are thrilled with their fast action & success!"

UCollect

Are you struggling to follow up on overdue accounts or collect bad debts? Most small businesses don't have the time, resources or knowledge to effectively manage these issues.

CollectIT is a self-managed system that enables businesses to implement terms of trade, follow up their slow payers AND chase their debts through the courts.

The CollectIT debtor management process sends out automatic reminders to you, helping to reduce payment time. Clients are given all the information, letters and documents to enable them to collect debts of up to \$200,000 through the New Zealand Court system.

There are no hidden costs or commission.

We've done it all for you so you can avoid having debts outstanding or clients using your money.

For all those builders and subcontractors who work in the building industry we also have a section on the Construction Contracts Act.

You are in control of your debts so they are more likely to be collected, and the money owed to you will be in your pocket!

Plus you get full support. CollectIT is just a phone call or email away.

WECollect

Don't want to collect those debts yourself?

CollectIT Limited is pleased to offer a debt collection service where we will manage the debt collection process for you. You do not need to use CollectIT's other service or diy system in order to use this service. It is a stand alone service..
